Intrusions
...

$$R = E \times P \times V$$

“Civil Protection is a **public service** intended for the **study and prevention** of situations supposing a high collective risk or an extraordinary disaster in which live and **physical integrity** of population are in **high massive danger** as well as for their own **protection** and their **belongings** in the cases in which those situations could happen»

CIVIL PROTECTION

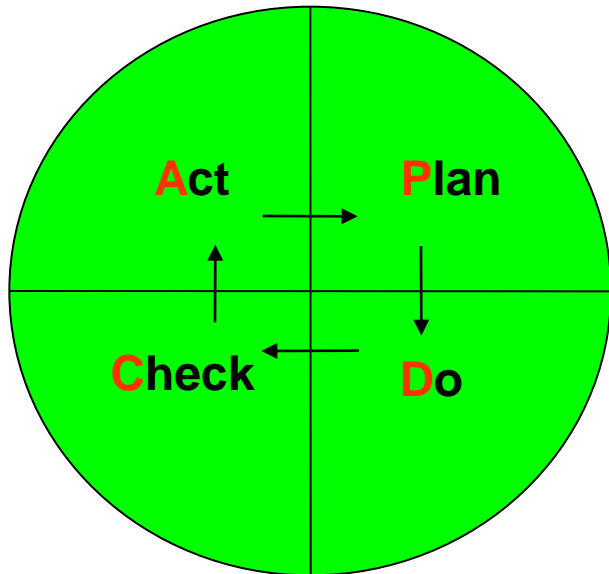

≠ big structures “ad hoc”

≡ organization and coordination
of sectoral services providing
their own media (human and
material)

Life is the only asset of this «protective holding»

COORDINATED ORGANIZATION

- Responsibilities (**WHO**)
- Resources (**WITH WHAT**)
- Methods (**HOW**)
- Programs (**WHEN**)

CIVIL PROTECTION SYSTEM

¡¡ COORDINATION SAVES LIVES !!

BASIC FUNCTIONS OF THE CIVIL PROTECTION

FORESIGHT

Risks inventories and risk maps
Resources Catalogue

PREVENTION

Training, Self-protection

PLANIFICATION

Emergency Plans (regional, specials and sectorals) and self-protection plans

INTERVENTION
